

Please do not remove our k-love radio signal from our area. As a resident in our local community I tune into k-love to know what's happening in our local area as well as other areas throughout the country. K-love is so uplifting and positive especially with the outside world and all the tragedies that surround us. When you tune into local radio, you hear the negatives and k-love even after discussing tragedies seem to always bring some good to the story.

Having a teenager and when she was younger, it is pleasing to know that I can turn to a station where the whole family can listen to and I do not have to worry about some sexist joke or crude remarks to other people or cussing. I also work in a professional office and it is a comfort to know the same applies, without a feeling of embarrassment brought on by the radio. I do believe that the service provided by K-love is in the best interest of the general public because our children are our tomorrow and the daily living dictates lots of gloom and doom but k-love gives everyone an encouraging word and many times brings hope when there seems to be little or none. Thank you for your understanding and please keep k-love on the air.

respectfully,  
LaVonne Walden
